SBA Communications Corporation (SBA) is wrapping up the Schematic Design phase and beginning the Design Development phase for the relocation of an existing cell tower at the Charles W. Woodward High School project.

In an effort to engage the community, we would like to hold a community work session to share how the project is developing, and what has been discussed and considered with other agencies. SBA extends an invitation to you to participate in this process.

Relocating the tower site is essential for the maintaining excellent mobile coverage for the school and surrounding community, meeting growing demands, and providing seamless reliable communications infrastructure for reaching emergency services.

The date and time for the work session is shown below. The work session is scheduled in the evening to allow for maximum involvement.

Thank you,

Design Development for Cell Tower Relocation at Charles W. Woodward High School Project

Community Work Session

Date: Wednesday, January 6th, 2021

Time: 6:30 pm
