

## Fall 2023 Site Circulation Silver Spring MS and Sligo Creek ES

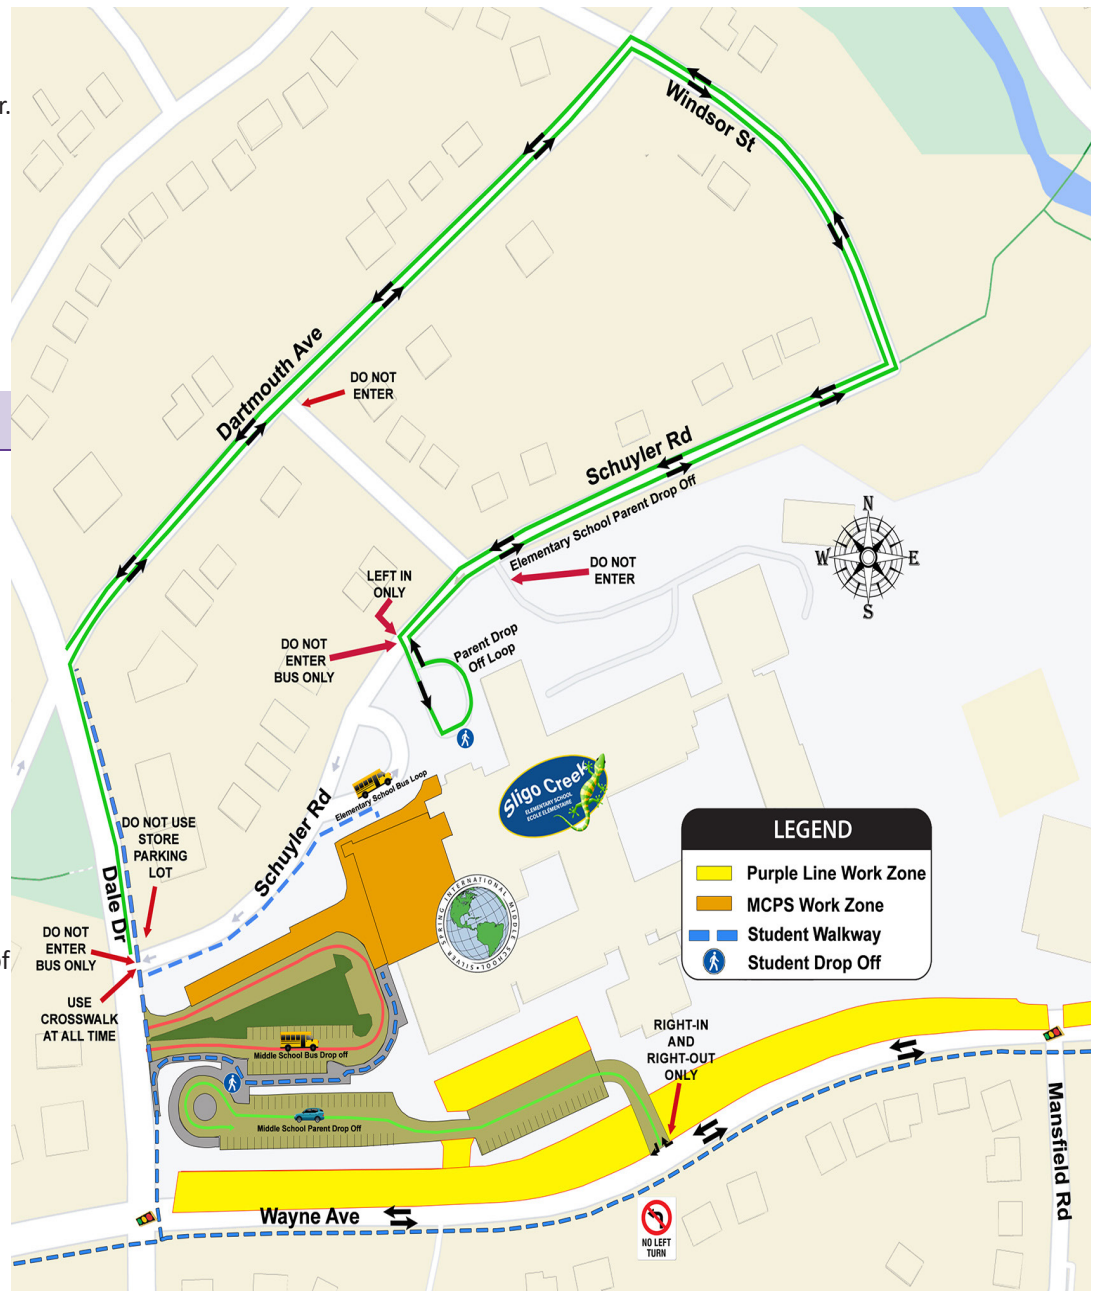

With the return to school right around the corner, we wanted to share what to expect in advance of the school year. To keep the public and our workers safe, please stay out of all work zones and remain away from all construction equipment.

- Pedestrian access will be maintained from Wayne Avenue and Dale Drive via the blue dotted line on the graphic.
- Car drop-off and pick-up in the lower lot will remain open for use, identified in green. Access to that lot/circle has shifted to the permanent location to the east slightly as identified on the graphic. The access road will be permanently changed to right-in, right-out only. Eastbound traffic on Wayne Avenue will not be able to turn left into the parking lot. Please follow the posted signage.
- Bus drop-off remains open in the upper lot, with no changes.
- Montgomery County Public Schools will continue to maintain crossing guards to assist with students crossing at signalized intersections.
- Sligo Creek Trail and Cabin Neighborhood Park detours remains in effect through the end of this year. Please follow posted signage and use open sidewalks.

### Sligo Creek ES

This year parents will need to use a different access route for the Sligo Creek Elementary School.

The parent drop-off route is shown in this graphic. From Dale Drive, parents will turn onto Dartmouth Avenue, make a right turn onto Windsor Street and another right turn onto Schuller Road. Parents will then continue on Schuyler Road until they reach the Sligo Creek Elementary School drop-off loop. Parents can safely drop off their children and proceed to return to Dale Drive using the same route. Please do not use any of the closed roads or bus-only options.

Please note that weather and unforeseen conditions may impact work schedule. To sign up to receive construction alerts via text message or email visit the website below.
