

MONTGOMERY COUNTY PUBLIC SCHOOLS

DIVISION OF CONSTRUCTION

Montgomery County Public Schools' (MCPS) Division of Construction is wrapping up the Schematic Design phase and beginning the Design Development phase for the Charles W. Woodward High School Reopening Project. In previous work sessions, in which the designs of building and site amenities were discussed, we received a lot of helpful feedback and input from various stakeholders and agencies. In an effort to continue school community engagement, we would like to hold another school community work session to share how the project is developing, and what has been discussed and considered with other agencies. MCPS extends an invitation to you to participate in this process.

The date and time for the work session is shown below. The work session is scheduled in the evening to allow for maximum involvement.

Sign language interpreter services will be provided upon request with notice as far in advance as possible, but no less than 5 business days prior to the event. If you are in need of this service or services and aids to participate in this activity, please call Ms. Shiho Shibasaki, project manager, Division of Construction, at 240-314-1000 voice; TTY users should call Maryland Relay (711) or email at Shiho_C_Shibasaki@mcpsmd.org. Taking these steps will help us have sufficient time to best meet your needs.

Thank you,

Design Development for Charles W. Woodward High School Reopening Project

School Community/PTA Work Session
