### REMARKS:

The second meeting at New Hampshire Estates ES for the Downcounty Consortium Elementary School Capacity Study was held on this date. The following is a record of issues discussed:

1. No residents or teachers attended this session. The design concept was reviewed with Mike Shpur. Emergency access and additional parking were the primary issues discussed. The suggestions and issues are documented in Meeting No. 1 meeting minutes.
2. The issue of the paired school was raised. The school only contains 3.3 acres and the play area is small. If the school remains a Pre K-2 the size of the play area might work better because the younger children do not need as large a play area as older children. That may be one justification for retaining the school as a Pre K – 2 school.
3. The meeting was adjourned at 7:40.
