

Dear Montgomery County parent,

We're introducing a new mathematics curriculum, called Eureka Math.

WHAT IS EUREKA

The Eureka Math curriculum was created by Great Minds, a nonprofit that brought together teachers and experts to craft a program based on the world's most successful math programs. Eureka was built around the core principle that students need to know more than just what works when solving a problem—they need to understand why it works.

The curriculum goes beyond facts and formulas, teaching students to think about math conceptually. This helps students become not merely literate, but fluent in mathematics.

PARENT RESOURCES

Your involvement in your child's education can have a significant impact on his or her success in school, that's why the teacher-writers who developed the curriculum, also created a suite of parent support resources that will help you support your child at homework time. These resources include:

- **Homework Helpers (K-12)** — A grade-level resource that provides step-by-step explanations of how to work problems similar to those found in Eureka Math homework assignments. There is a Homework Helper to go with every homework assignment in the curriculum.
- **Parent Tip Sheets (K-8)** — Topic-level tip sheets that explain math strategies and models, provide key vocabulary, sample problems, and links to useful videos. (Also available in Spanish.)

WHY EUREKA

Eureka has received high ratings from educators and reviewers nationwide. Schools and districts are seeing growth and impressive test scores after just one year of implementation.
