### **Information to Parents/Guardians of High School Students Regarding the Youth Risk Behavior Surveillance System (YRBSS) Survey**

This section of the form is to notify you about the *Youth Risk Behavior Surveillance System* (YRBSS) and procedures to follow if you **DO NOT** want your child to participate in the YRBSS survey. The United States Centers for Disease Control and Prevention created the YRBSS to measure risk factors and to monitor the effectiveness of risk reduction programs. The survey is designed to identify risk behaviors that may include safety behaviors such as use of helmets and seat belts; depression and mental health; use of tobacco, alcohol, or other drugs; nutrition and physical activity; and sexual behaviors.

The Maryland State Department of Education requires local school systems to utilize passive parental consent for the administration of the YRBSS survey in order to obtain a completely representative and statistically valid number of survey participants. During the school year, a random sampling of high schools may be selected to participate in the survey. Unless you indicate on the front of this form that your child may not participate in the survey, he/she may be given the survey if their school is included in the random sample. Please consider the following factors as you make your decision:

- Your child's participation in the YRBSS survey is voluntary.
- The YRBSS survey is confidential and your child's answers will be kept private.
- Your child's name is not required on the survey answer sheet.

For more information about the YRBSS survey or to request a copy of the survey questions, please contact the Centers for Disease Control and Prevention, 1600 Clifton Road, Atlanta, Georgia 30333, telephone number 800-232-4636, or visit the following website: [www.cdc.gov/healthyyouth/yrbs](http://www.cdc.gov/healthyyouth/yrbs).

If you **DO NOT** want your child to participate in the YRBSS survey, please complete the section on the front of the form which indicates "YRBSS—May Not Participate."
