 9601 Medical Center Drive, Rockville, MD 20850
Cost: Free (Registration Required)
How to Register: <http://bit.ly/GITProtege2016>

ABOUT THE PROGRAM

GIT's Mentor-Protégé Program is designed to demonstrate and explain Science, Technology, Engineering, and Math (STEM) career paths to high school-aged girls. GIT hosts five program sessions where girls hear about STEM careers and develop confidence through Q&A with distinguished guest panels and group mentoring sessions with professional women in STEM. Girls will have the chance to ask the mentors questions, learn about career opportunities and how to navigate challenges they may face in school and society. GIT Mentor-Protégé program also provides scholarship opportunities and experience-based awards to GIT Protégés.

GIT Mentor-Protégé Program is offered by Women in Technology's Girls in Technology (GIT) Committee, underwritten by STEM for Her Foundation, and hosted by the Johns Hopkins University in Montgomery County.

STEM = Science, Technology, Engineering, and Math
