

# Automotive Technology / Dealership Training

---

*Do you love cars?  
Do you like working with your hands?  
Come join our team!*

---

Students are provided instruction and gain hands-on experience in the maintenance, repair, and marketing of automobiles. Students can achieve Automotive Service Excellence(ASE) student certifications and articulation credits at Montgomery College.

Beyond the classroom, the Automotive Trades Foundation (ATF) has enhanced the program with state-of-the-art equipment, face-to-face contact with industry professionals, and first hand automotive sales and service experience.

Classroom and lab activities will include a variety of hands-on laboratory experiences, class discussions and critiques, open-ended problem solving, work-based learning and project-based learning. (15 SSL hours/ sem.)

Students develop technical, analytical, and communication skills for post-secondary school training or entry level employment in the automotive industry.
